

APPLICATION SPECIFIC INFORMATION

California Code of Regulations (CCR) sections 6723.1 and 6761.1 require a grower to **display** the following information at a central location if there are employees handling and/or fieldworkers entering in a **treated site** (a site is considered treated if a pesticide was applied within 30 days plus the restricted entry interval (REI)):

1. A master map with the block(s) identified.
2. A numbered master list for pesticides applied. The list should include the following information:
 - Pesticide name
 - E.P.A. Registration Number
 - Active Ingredients
 - Restricted entry interval
3. For each application include the following:
 - Block identification number
 - Number of pesticide(s)
 - Date and time of application

Suggestion: Use three pieces of paper for the above information. Laminate page #1 – master map and laminate page #2- list of pesticides, as this information will not change. Every time an application is made, page #3, write in the date/time finished, the number(s) of pesticides applied, and block number. Post or put in a binder in a central location.

HAZARD COMMUNICATION REQUIREMENTS

According to CCR 6723 and 6761 you must have the following information available to handlers and/or fieldworkers working in a treated site:

1. ***Display** a completed Pesticide Safety Information Series (PSIS) A8 (handlers) and/or PSIS A9 (fieldworkers). PSIS must be up to date, fully complete, and in English and Spanish
 - PSIS A9 requires the following information:
 - “Emergency medical care is available at”- must list the physical address and name of a medical care facility that is equipped to handle pesticide exposure.
 - “You can find information about recent pesticide use at” – must give a detailed description and physical address of where the application specific information is located (i.e. office cabinet drawer at 1234 Ag St, Templeton).
 - “Records of all pesticides used and MSDSs are kept at”- give the location of where records are maintained.
2. Maintain at a ****central location** the Material Safety Data Sheet (MSDS) for any pesticides applied, the PSIS A series, and pesticide use records.

*Display- make information available to the employees so that he/she may readily see and read any document during normal business hours, without having to make a specific request of any person. An employee shall not be hindered or impeded from examining documents required to be displayed. This definition does not preclude using a binder or filing cabinet, that otherwise meets these criteria, to contain documents for display.

**Central location- a place where the business maintains other records such as purchase orders, training records, etc.
